

Cycle Master IV Event Sequencer

Use the light-weight, compact Cycle Master IV to program up to 14 continuous or timed events for vacuum ovens. The timed events can be programmed in both minutes and hours. Repeat events for up to 99 cycles on a limited basis. Events may be started at a pre-determined time. The countdown displays on a 2-digit time indicator with light indicators to show which event is in progress at all times. If an event is interrupted prematurely, the Cycle Master IV activates a fault light and alarm.

Specifications

- Power: 110 VAC, 50/60 Hz, 20 Watts, supplied by the Polaris Oven
- Dimensions: 5 1/8" wide X 6 3/8" high X 6 5/8" deep
- Weight: 5 lbs.
